

# TOP 5 TIPS

## FOR STUDENT SAFETY

Studying in Australia can be a great learning experience. We want to ensure you stay safe and enjoy your time here in Sydney.

### Travelling safety around the city

Avoid empty and badly lit places at night. Always walk with a friend or stay with a crowd. Be aware of your surroundings at all times.

### Staying safe on the roads

In Australia we drive on the left side of the road and walk on the left.

### Being aware of cyber safety

It is important that you are vigilant while surfing the web. Some websites may have harmful programs or viruses that may damage your computer or steal your personal information.

### Choosing safe accommodation

No matter what kind of accommodation you choose, safety should always be your first priority.

### Knowing about fire safety

The first priority in any fire situation is safety. Smoke kills. Do not place yourself at risk.
